Subject: CDF Q1 Donation
Importance: High

Steve,

I received an updated donation request from CDF on Friday. The good news is that their total request for 2014 has decreased by 16MM due to 2013 carryover funding and a reduced patient grant amount. However, the Q1 donation request has not changed much, with an initial request of 25.5MM. I would like to divide our Q1 donation into 2 installments of 12.75MM as we continue to monitor the Independent Non-Profit environment for wet-AMD. Please let me know if I can move forward with submitting the first request of 12.75MM.

Thanks,
Bil
